

Dr. Jacob D. Wickham, Academic Trainer (Language: English)

Dr. Jacob Wickham, Managing Editor of the journal *Integrative Zoology*, is an Assistant Professor at the Institute of Zoology in the Chinese Academy of Sciences and Adjunct Professor at the Department of Entomology in Rutgers University. An award-winning and celebrated zoologist, Dr. Wickham has over 15 years of experience in academic publishing and had published several papers in high impact journals. Dr. Wickham has gained a lot of valuable experience in research and journal publishing over

the years and is passionate about sharing his knowledge with researchers to help them in their publication journey.

Dr. Yosuke Tomita, Academic Publication Trainer and Consultant (Language: English and Japanese)

Dr. Yosuke Tomita, Physiotherapist, is an Assistant Professor at the Takasaki University of Health and Welfare. Dr. Tomita has over 10 years of experience as of academic research and clinical practice, publishing several papers in high impact journals in the area of rehabilitation, neuroscience and biomechanics. Based on his experience as a researcher and clinician, Dr. Tomita has been working on knowledge translation to bridge the gap between clinical practice and research evidence.

**David Kipler | Consultant Academic Publication Trainer
(Language: English)**

David obtained his certification as an Editor in the Life Sciences in 2005. In addition, he has acquired extensive experience as an instructor in English reading and writing and English for Medical Purposes: he was a member of the Toho University Faculty of Medicine for 14 years and has held faculty appointments at top universities in Japan, including The University of Tokyo and Keio University School of Medicine. David has long been involved in biomedical publishing and has served as language editor for several journals in Japan, including the Journal of Epidemiology. David has written and presented on

English education in Japanese medical universities, medical terminology, and professional development for biomedical communicators and is coauthor of the Medical English Listening Course for ALC NetAcademy. He is a member of the American Medical Writers Association, the Board of Editors in the Life Sciences, and the Japan Society for Medical English Education.

Caven Mcloughlin | Consultant Academic Publication Trainer (Language: English)

Professor Caven Mcloughlin is a current, active Fulbright Specialist in Journal & Grant Writing with a mandate to consult with faculty about how to get their work accepted by prestigious, high-impact, English-language journals. He has recent experience in assisting scientific, medical & social science researchers in universities in China, India, Turkey, South Korea & South Africa. Dr. Mcloughlin has 20+ years of experience as a journal editor in his field of child psychology.

What he shares in this webinar is information for helping scientific researchers who serve journals. He shares a 'business strategy of journal management' to match to the 'scientific management' that is already in place.

Yateendra Joshi, Academic Publication Trainer (Language: English)

A copy editor and trainer with 30+ years of experience, and a freelance editor since 2015. Worked with the World Institute of Sustainable Energy, Pune, as Senior Fellow for 10 years; with The Energy and Resources Institute, New Delhi, in different capacities for 15 years; as Senior Editor for a year with International Crops Research Institute for the Semi-Arid Tropics, Hyderabad; as a scientist with the Indian Council of Agricultural Research for 10 years; and taught plant pathology for 2 years at the University of Agricultural Sciences, Bangalore, immediately after obtaining a master's degree in

agriculture from the same university. Mr. Joshi is one among only 27 editors who have been awarded the status of Diplomate Editor by the Board of Editors in Life Sciences, USA, for displaying exceptional editorial proficiency. He is also the first non-European to be elected to the council of EASE, the European Association of Science Editors. He has been teaching technical writing at postgraduate level for more than 15 years and holds the Certificate in Advanced English (with A grade) awarded by Cambridge English Language Assessment, Cambridge University.

Dr. Shivaneesh Shah, Academic Trainer (Language: English)

Dr. Shah obtained her Bachelor's degree from St. Xavier's College, Mumbai, India, with an Honors in Microbiology and Biochemistry; her Master's degree from Maharaja Sayajirao University, Vadodara, India, in Biochemistry; and her doctoral degree in Immunology from the Department of Microbiology and Immunology, Loyola University, Illinois, USA. She has had the opportunity to complete two postdoctoral fellowships, one at the Department of Thoracic and Cardiovascular Surgery, Loyola University Medical Center, Illinois, USA and one at Department of

Pathology, University of Massachusetts Medical School, Massachusetts, USA.

After returning to India, she joined Cactus Communications as a Managing Editor in the Publications Support Services team. She has now been with Editage for 5 years and currently holds the position of a Publications Manager. In her role, she uses her strong scientific background and language skills to help authors prepare publishable manuscripts and guide them to successful publications. She has also obtained certification from the Board of Editors in the Life Sciences (BELS, December 2013).

Dr Charu Raghavan, Academic Trainer (Language: English)

Dr Charu Raghavan is a psychologist, specializing in clinical and cognitive neuropsychology. Over the past 15 years, she has acquired experience both as a clinician working across hospitals in India, as well as a researcher

trained in the UK. Her research experience includes a specialized Masters by Research in Brain Imaging & Neuroscience (University of Birmingham, UK) and DPhil in Experimental Psychology (University of Oxford, UK). During her time in the UK, she has been affiliated with multiple research labs, has worked on theoretical and neuroscience methods and applied neuropsychology questions, presented her work in International conferences as well as conducted peer reviews for high impact journals. She has been associated with Editage since 2018 as a peer reviewer and also conducts quality checks for peer reviews and journal selections. Currently, she is based in Pune where she contributes to her field of work both as a scientist and evidence-based practitioner. She is Consultant Neuropsychologist at Poona Hospital & Deenanath Mangeshkar Hospital, guest faculty lecturer at Symbiosis College for Psychology as well as researcher in translational neuropsychology.

Dr. Sunaina Singh, Academic Trainer (Language: English)

Dr Sunaina Singh obtained her bachelor's degree from Punjab Agricultural University, Ludhiana, India, majoring in crop science. She got her master's degree and doctoral degree, both in the field of plant genetic resources, from the Indian Agricultural Research Institute, New Delhi. She was awarded the CSIR fellowship for her doctoral research. She also has certification for lectureship from CSIR-UGC NET. Some of her papers have appeared in journals like Journal of Plant Biochemistry and Biotchnology and Acta Horticulturae. She has also presented papers at various national and international conferences. After brief stints as a guest lecturer at the Department of Life Science, Mumbai University, and as a Senior Associate Editor at CACTUS, she has been working as a freelance academic editor for CACTUS, as well as for researchers in agriculture, genetics, and molecular biology, for the last 9 years. Having had hands-on experience in scientific laboratories, lecture rooms, and the academic publishing industry, she loves to work closely with researchers and students to help them communicate their findings effectively and refine their research manuscripts to maximize chances of publication.

**Shane Rydquist, Content Head, Editage Research Communication Services,
Powered by Impact Science (Language: English)**

Shane has over 5 years of experience in language editing, scientific communication, and publishing. He has personally edited over 1,000 manuscripts across various subject areas in the life sciences, collaborating with over 7,500 researchers to help them realize their dream of publishing in high impact-factor journals. He has also helped deliver against the expectations of millions of researchers by overseeing iterative and author-oriented editorial solutions. He strongly believes that every researcher deserves to have their work read, cited, and valued by the larger scientific community. Shane has a Masters in Science, with a specialization in Plant Molecular Biology. He loves playing football and composing music in his spare time. Seeing a researcher's hard work come to life through creative visualizations is what Shane looks forward to the most in his work day.
