

Upcoming webinar

Why publish open access?

Topics: Tips on submitting your articles to *Flow* & Maximizing the impact of your research.

Register for the webinar now!

10:00-11:00 Japan Time, May 17, 2022

<https://www.surveymonkey.com/r/Y6TGDSJ>

Speakers

Professor Juan G. Santiago, *Editor in Chief of Flow, Department of Mechanical Engineering, Stanford University.*

His research includes the development of microsystems for on-chip chemical and biochemical analysis, methods for DNA quantification and hybridization, and electric-field based deionization methods.

Professor Shu Takagi, *Associate Editor of Flow, Department of Mechanical Engineering, School of Engineering, The University of Tokyo.*

His subjects of research are human body simulation using supercomputers, blood flow simulations, medical applications of ultrasound and microbubbles, and multiscale modeling of biomembrane.
