The translation was produced by the Shōbōgenzō Zen Text Project, a team of scholars working under the auspices of the Administrative Headquarters of Shōbōgenzō Zen Buddhism. The translations, in seven volumes, are aimed at both professional and lay audiences. They are accompanied by the Japanese texts and by extensive annotation on the language, literary sources, and interpretations of those texts. An eighth volume provides a lengthy study of the history and contents of the Shōbōgenzō, supplementary notes to the translation, and an extensive bibliography of primary and secondary works.

For nearly two decades, the Nanzan Guide to Japanese Religions has served as a valuable resource for students and scholars of religion in Japan. This exciting update expands the audience to include non-specialists of Japan while also complicating the notions of "Japan" and "religion." Asking the provocative question "why study Japanese religions?" the editors argue that studying Japan is vital for the academic study of religion writ large and make a case for the continued importance of religious topics in Japan studies, broadly conceived.

6. O'Dwyer, Shaun (ed.)

Confucianism at War : 1931-1945.

This volume includes studies of Japanese, Chinese, colonial Manchurian and Korean intellectuals and reformers who contributed to expansionist, collaborationist or nationalist ideology-building during the war. Contrary to the assumption that Confucianism was an anachronism rendered irrelevant by the Westernising political reforms and revolutions of the early twentieth century, the chapters in this book show that Confucianism remained a potent, and also contested cultural resource for promoting national cohesion, war mobilisation and expansionism in East Asia between the Japanese invasion of Manchuria in 1931 and the end of World War II in 1945.

In his award-winning *Unearthly Powers* (2019), Alan Strathern set out a theoretical framework for understanding the relation between religion and political authority based on a distinction between two kinds of religion - immanentism and transcendentalism - and the different ways they made monarchy sacred. This ambitious and innovative companion volume tests and substantiates this approach using case studies from Kongo (1480 - 1530), Japan (1560 - 1614), Ayutthaya (Thailand, 1660 - 1690) and Hawaii (1800 - 1830).

Incorporating various perspectives on the Japanese notion of virtue, this book investigates and expands our current understanding of virtue and presents a foundational case study of an alternative approach to virtues. Viewed through the filter of Japanese history and culture, and focusing on different contexts in Japan, the book investigates both moral and epistemic virtues as well as discussing the practical and educational implications that such alternative virtues may have on our lives, with the goal of reforming the current research trends in virtue theory and encouraging the wider public to consider the notion of virtue from a fresh perspective.

The volume editors' vision is bifocal. On one hand, they aim to reorient East Asian studies and Japan studies to the sea, underlining how oceans have shaped dynamics from the Tokugawa Era forward into the age of empire and the crisis of the Anthropocene. On the other hand, they argue for a more nuanced environmental approach within the burgeoning field of Oceanic studies.

This book argues that soy was transformed into a versatile industrial raw material and global commodity through the political-economic strategies of state and business actors engaged in the development of the capitalist world-economy. By studying little-known Japanese historical documents and corporate records, and focusing on the less-researched vegetable oil and industrial uses of soy, this book provides a better understanding of how this traditional Asian food was transformed into a global commodity embedded in contradictions.

In *A Kiss for the Absolute*, Mary Jo Bang, winner of the National Book Critics Circle Award, and her fellow poet and translator Yuki Tanaka present the first collection in English of Takiguchi's ingenious, playful, and erotic poems, complete with an introduction and the original Japanese texts on facing pages. Takiguchi's obvious interest in style is perfectly wed to his daredevil rhetorical antics. His poems read as if they could have been written today, yet they are so original that they couldn't have been written by anyone else. Bang and Tanaka's skillful, colloquial translations offer English readers a long-overdue introduction to this important poet.

Although it is widely believed that Japanese people are typical collectivists compared to individualistic Westerners, this view is not supported by empirical research. Employing 'Japanese collectivism' as a case example, this book explores how the dichotomous view of cultures was established and investigates how cultural stereotypes exacerbate emotional conflicts between human groups. Drawing on empirical findings, it theoretically analyses the properties of cultural stereotype to reveal the hazards associated with stereotyping nations or ethnicities.

This book is one of the first edited volumes on the current Israel/Palestine conflict - the Gaza Nakba 2023 - 24. It contains contributions from both young post-doctoral researchers and more seasoned scholars from Japan. These authors, with their rich experience of field work in the region and their interdisciplinary approaches, are able to provide critical analyses on the current breakdown of humanitarian norms, the dysfunctional state of international organizations, and the breakdown of conflict management and peace-building.

日本のアニメは、ますます世界の観衆を魅了し、国際的なアニメ研究も盛んですが、アニメ作品の効果を高めている音楽や音響については学術的な研究はいまだ少なく、本書はその間隙を埋める初のハンドブックとして画期的です。

「サウンド・スタディーズ」が注目されている中で、音楽・音響・大衆文化研究とアニメ研究の関心を結びつける本書は、今後の国際的フィールドの広がり方を方向づける一冊といえそうです。全44章にわたって、1930年代から現在までの日本アニメ(映画・テレビ)における音楽・音響・音声の発展を、理論的な基盤にもとづく多数の論考を有機的に構成して、見わたします。堀江美都子らの関係者へのインタビュー、主要作曲家・声優ガイド、用語集、参考映像・音源目録を含むのも貴重です。編者マルコ・ペリッテリは、イタリア語でアニメ研究書を執筆し、編著論文集 *Japanese Animation in Asia* もあります。本書の推薦者は、邦訳書『なぜ日本は「メディアミックスする国」なのか』で広く知られた映画研究者マーク・スタインバーグ(カナダ・コンコルディア大学教授)や『アニメーション文化 55 のキーワード』『ジブリ・アニメーションの文化学』などの編者である須川亜紀子・横浜国立大学教授らの著名研究者たちが名を連ねています。

日本アニメ研究の新たな次元を切り拓き国際的に共有する本書は新たな必携レファレンスといえるでしょう。

【推薦文から】

“This is an essential handbook on sound in Japanese animation, which offers valuable resources for researchers and fans alike, and opens exciting avenues for future research on the topic. Want to read about anime’s music, songs, voice acting, and interviews with key players in the industry? This book is for you.”

—**Prof. Marc Steinberg**, Director of the Platform Lab, Concordia University.

“This handbook is truly long-awaited, as there has never been such an ambitious and full-fledged introductory reference on music and sound in Japanese animation. It gives us a first unified overview of the music, songs, voice acting, sound effects, and the music industry that surround Japanese animation. The interviews with prominent anime music and song composers, anime song singers, and anime directors are also extremely valuable. It will be a must-read basic reference for anyone interested in this field.”

—**Prof. Akiko Sugawa-Shimada**, Yokohama National University
